

About Me

I build brand-forward digital experiences that feel sharp, fast, and human. From product strategy to polished interfaces, I help founders and teams ship work that looks expensive and performs like it means it.

AARON DEMOL

Product Designer & Frontend Engineer

EXPERIENCE

Lead Product Designer

Northstar Studio - Remote

2022 - Present

Guided UI strategy, motion systems, and design execution for fintech and developer tooling products.

Senior Frontend Engineer

Blackline Labs - Brooklyn, NY

2019 - 2022

Built performant React interfaces, improved accessibility, and partnered with product teams on launches.

Digital Designer

Aster Creative - Boston, MA

2016 - 2019

Designed campaign sites, landing experiences, and reusable component systems for startup clients.

EDUCATION

BFA, Interactive Design

Rhode Island School of Design

2012 - 2016

Focused on digital product design, motion, and human-centered design systems.

Advanced Frontend

Certification

Frontend Masters

2018

Completed advanced coursework in React architecture, accessibility, performance, and animation.

SELECTED PROJECTS

Luxe Commerce Dashboard

E-commerce Case Study

Revenue, inventory, customer analytics, and launch campaign tracking in one focused workspace.

Creator Portfolio CMS

Live Build

Portfolio site with editable sections, protected admin controls, and Firebase-backed content management.
